MAGENTO DEVELOPER

HIGHLIGHTS

Hi, I'm a backend developer with + 7 years of experience using PHP as my main language. I have experience usign PHP native and some of its frameworks/CMS as Laravel, Wordpress, Magento, CodeIgniter. Also, I have used some tools to improve the user experience, I've been using technoliges like CSS3, JavaScript for 5 years and I have used some frameworks like .less to help the development. I consider I am proactive person with excellent communication, problem solving and self taught skills.
